

NAME

FcCharSetCoverage - DEPRECATED return coverage for a Unicode page

SYNOPSIS

```
#include <fontconfig/fontconfig.h>
```

```
FcChar32 FcCharSetCoverage (const FcCharSet *a, FcChar32page, FcChar32[8]result);
```

DESCRIPTION

DEPRECATED This function returns a bitmask in *result* which indicates which code points in *page* are included in *a*. **FcCharSetCoverage** returns the next page in the charset which has any coverage.
