

NAME

FcLangSetContains - check langset subset relation

SYNOPSIS

```
#include <fontconfig/fontconfig.h>
```

```
FcBool FcLangSetContains (const FcLangSet *ls_a, const FcLangSet *ls_b);
```

DESCRIPTION

FcLangSetContains returns **FcTrue** if *ls_a* contains every language in *ls_b*. *ls_a* will 'contain' a language from *ls_b* if *ls_a* has exactly the language, or either the language or *ls_a* has no territory.
