

**NAME**

FcPatternIterValueCount - Returns the number of the values which the iterator point to

**SYNOPSIS**

```
#include <fontconfig/fontconfig.h>
```

```
int FcPatternIterValueCount (const FcPattern *p, FcPatternIter *iter);
```

**DESCRIPTION**

Returns the number of the values in the object which *iter* point to. if *iter* isn't valid, returns 0.
