NAME

    FcStrSetAddFilename - add a filename to a string set

SYNOPSIS

    #include <fontconfig/fontconfig.h>

    FcBool FcStrSetAddFilename (FcStrSet **set***, const FcChar8 ****s***);**

DESCRIPTION

    Adds a copy *s* to *set*, The copy is created with FcStrCopyFilename so that leading '~' values are replaced with the value of the HOME environment variable.
