

NAME

OF_package_to_path - get fully qualified path to a device tree node

SYNOPSIS

```
#include <dev/ofw/ofw_bus.h>
```

```
#include <dev/ofw/ofw_bus_subr.h>
```

ssize_t

```
OF_package_to_path(phandle_t node, char *buf, size_t len);
```

DESCRIPTION

OF_package_to_path() copies at most *len* bytes of the fully qualified path to the device tree node *node* into the memory specified by *buf*. The function returns the number of bytes copied or -1 in case of the error.
