

NAME

RAND_cleanup - erase the PRNG state

SYNOPSIS

```
#include <openssl/rand.h>
```

The following function has been deprecated since OpenSSL 1.1.0, and can be hidden entirely by defining **OPENSSL_API_COMPAT** with a suitable version value, see **openssl_user_macros(7)**:

```
void RAND_cleanup(void);
```

DESCRIPTION

Prior to OpenSSL 1.1.0, **RAND_cleanup()** released all resources used by the PRNG. As of version 1.1.0, it does nothing and should not be called, since no explicit initialisation or de-initialisation is necessary. See **OPENSSL_init_crypto(3)**.

RETURN VALUES

RAND_cleanup() returns no value.

SEE ALSO

RAND(7)

HISTORY

RAND_cleanup() was deprecated in OpenSSL 1.1.0; do not use it. See **OPENSSL_init_crypto(3)**
