

NAME

XkbFreeIndicatorMaps - Frees memory used by the *indicators* member of an XkbDescRec structure

SYNOPSIS

```
void XkbFreeIndicatorMaps (XkbDescPtr xkb);
```

ARGUMENTS

xkb keyboard description structure

DESCRIPTION

If the *indicators* member of the keyboard description record pointed to by *xkb* is not NULL, *XkbFreeIndicatorMaps* frees the memory associated with the *indicators* member of *xkb*.

If *xkb* is NULL, no operation is performed.
