NAME
amdsmn - device driver for AMD processor System Management Network

SYNOPSIS
To compile this driver into the kernel, place the following line in your kernel configuration file:

device amdsmn

Alternatively, to load the driver as a module at boot time, place the following line in loader.conf(5):

amdsmn_load="YES"

DESCRIPTION
The **amdsmn** driver provides support for resources on the System Management Network bus in AMD Family 17h processors.

SEE ALSO
loader(8)

HISTORY
The **amdsmn** driver first appeared in FreeBSD 12.0.
