NAME

   bhndb_pci - Broadcom Home Networking Division PCI host bridge driver

SYNOPSIS

   To compile this driver into the kernel, add the following lines to the kernel configuration file:

   device bhnd
   device bhndb
   device bhndb_pci
   device pci

   To load the driver as a module at boot, add this line to loader.conf(5):

   bhndb_pci_load="YES"

DESCRIPTION

   The **bhndb_pci** driver provides bhndb(4) support for the PCI and PCIe host bridge cores found in
   Broadcom Home Networking Division's wireless chipsets and network adapters.

SEE ALSO

   bhnd(4), bhndb(4), bwn(4), intro(4), pci(4)

HISTORY

   The **bhndb_pci** device driver first appeared in FreeBSD 11.0.

AUTHORS

   The **bhndb_pci** driver was written by Landon Fuller *<landonf@FreeBSD.org>*.
