NAME

    brasero - Simple and easy to use CD/DVD burning application for the Gnome Desktop

SYNOPSIS

    brasero [*options*] [*uri*] [*uri*] ...

DESCRIPTION

    This manual page documents briefly the **brasero** command.

    Brasero is a disc burning application. It is designed to be simple and easy to use. It allows to create data CD/DVD, audio CD, to copy CD/DVD and to burn images. It has some nices features, such as a song, image and video previewer. It can also search for files (thanks to beagle) and display a playlist and its contents.

OPTIONS

    This program follows the usual GNU command line syntax, with long options starting with two dashes ('-'). A summary of options is included below. For a complete description, see the Info files.

    -p, --project=PROJECT

        Open the specified project.

    -a, --audio

        Open an empty audio project.

    -d, --data

        Open an empty data project.

    -c, --copy=PATH

        Copy a disc.

    -j, --cover=PATH

        Cover to use.

    -o, --video

        Open a video project adding the URIs given on the command line.

    -i, --image=PATH

        Uri of an image file or a cue file to be burnt (autodetected).

    -e, --empty

Force brasero to display the project selection page.

-b, --blank
　　Open the blank disc dialog.

-k, --check
　　Open the check disc dialog.

-n, --ncb
　　Open a data project with the contents of burn:/// URI.

-r, --burn-and-remove-project=PATH
　　Burn the specified project and REMOVE it.

--display=DISPLAY
　　X display to use.

-?, --help
　　Show summary of options.
