

**NAME**

**data\_ahead, data\_behind** - test for off-screen data in given forms

**SYNOPSIS**

```
#include <form.h>
```

```
bool data_ahead(const FORM *form);
bool data_behind(const FORM *form);
```

**DESCRIPTION**

The function **data\_ahead** tests whether there is off-screen data ahead in the given form. It returns TRUE (1) or FALSE (0).

The function **data\_behind** tests whether there is off-screen data behind in the given form. It returns TRUE (1) or FALSE (0).

**SEE ALSO**

**curses(3X), form(3X)**.

**NOTES**

The header file **<form.h>** automatically includes the header file **<curses.h>**.

**PORATABILITY**

These routines emulate the System V forms library. They were not supported on Version 7 or BSD versions.

**AUTHORS**

Juergen Pfeifer. Manual pages and adaptation for new curses by Eric S. Raymond.
