

NAME

devclass_get_device - translate unit number to device

SYNOPSIS

```
#include <sys/param.h>
```

```
#include <sys/bus.h>
```

device_t

```
devclass_get_device(devclass_t dc, int unit);
```

DESCRIPTION

This function retrieves the device instance with the given unit number and returns it.

RETURN VALUES

If the device exists, it is returned, otherwise NULL is returned.

SEE ALSO

devclass(9), device(9)
