

NAME

devclass_get_drivers - get a list of drivers in a devclass

SYNOPSIS

```
#include <sys/param.h>
```

```
#include <sys/bus.h>
```

int

```
devclass_get_drivers(devclass_t dc, driver_t ***listp, int *countp);
```

DESCRIPTION

Retrieve a list of pointers to all driver instances currently in the devclass and return the list in **listp* and the number of drivers in the list in **countp*. The memory allocated for the list should be freed using `free(*listp, M_TEMP)`, even if **countp* is 0.

RETURN VALUES

Zero is returned on success, otherwise an appropriate error is returned.

SEE ALSO

devclass(9), device(9)
