NAME

    dwarf_die_abbrev_code - retrieve the abbreviation code for a DWARF debugging information entry

LIBRARY

    DWARF Access Library (libdwarf, -ldwarf)

SYNOPSIS

    #include <libdwarf.h>

    int
    dwarf_die_abbrev_code(*Dwarf_Die die*);

DESCRIPTION

    Function **dwarf_die_abbrev_code**() returns the abbreviation code for the debugging information entry descriptor referenced by argument *die*. Argument *die* should be a valid pointer to a value of type *Dwarf_Die*.

RETURN VALUES

    The function returns an integral value.
