

**NAME**

Enchant - list provider and dictionary information

**SYNOPSIS**

**enchant-lsmod-2** [[-lang|-word-chars] [language\_tag]|-list-dicts|-help|-version]

**DESCRIPTION**

**enchant-lsmod-2** gives information about Enchant's spell-checker providers and the dictionaries each offers. See **enchant-2(1)** for details about how the providers and dictionaries are located. If no command-line options are given, the available providers are listed.

**OPTIONS****-lang**

Show which provider and dictionary will be used for the given language, or all languages if none is supplied.

**-word-chars**

Show the extra word characters for the given language, if available. This is of little interest to most users.

**-list-dicts**

List the provider and dictionary for all available languages.

**-help**

Show brief help.

**-version**

Prints the program's version.
