NAME

Enchant - list provider and dictionary information

SYNOPSIS

enchant-lsmod-2 [[**-lang**|**-word-chars**] [**language_tag**]|**-list-dicts**|**-help**|**-version**]

DESCRIPTION

enchant-lsmod-2 gives information about Enchant's spell-checker providers and the dictionaries each offers. See **enchant-2**(1) for details about how the providers and dictionaries are located. If no command-line options are given, the available providers are listed.

OPTIONS

-lang

Show which provider and dictionary will be used for the given language, or all languages if none is supplied.

-word-chars

Show the extra word characters for the given language, if available. This is of little interest to most users.

-list-dicts

List the provider and dictionary for all available languages.

-help

Show brief help.

-version

Prints the program's version.
