

**NAME**

**fwget** - Install firmwares for the running system

**SYNOPSIS**

**fwget** [-v] [-n] *subsystem*

**DESCRIPTION**

The **fwget** utility can be used to install firmwares packaged needed for the running system

If not specified the *subsystem* argument will default to pci cards.

The options are as follows:

**-n**

Dry run, only show needed packages

**-v**

Be more verbose

**SEE ALSO**

firmware(9)

**HISTORY**

The **fwget** utility appeared in FreeBSD 14.0.

**AUTHORS**

The **fwget** utility and this manual page were written by Emmanuel Vadot <[manu@FreeBSD.org](mailto:manu@FreeBSD.org)> for Beckhoff Automation GmbH & Co. KG .
