NAME

gifwedge - create a GIF test pattern

SYNOPSIS

gifwedge [-v] [-l *lvls*] [-s *sizex sizey*] [-h] [*gif-file*]

DESCRIPTION

A program to create a test GIF image with intensity levels of the RGB colors YCM colors and white.

OPTIONS

-v

Verbose mode (show progress). Enables printout of running scan lines.

-l lvls

Set number of intensity levels per color. This number must be power of two up to 32, as Gif format can only have 256 color simultaneously and 7 basic colors are to be displayed.

-s sizex sizey

Force image size to be SizeX by SizeY pixels. Image size will be rounded down to be a multiple of number of intensities horizontally, and 7 (colors) vertically.

-h

Print one line command line help, similar to Usage above.
