

NAME

gnutls_compress_certificate_get_selected_method - API function

SYNOPSIS

```
#include <gnutls/gnutls.h>
```

```
gnutls_compression_method_t gnutls_compress_certificate_get_selected_method(gnutls_session_t session);
```

ARGUMENTS

gnutls_session_t session
is a **gnutls_session_t** type.

DESCRIPTION

This function returns the certificate compression method that has been selected to compress the certificate before sending it to the peer. The selection is done based on the local list of supported compression methods and the peer's requested compression methods.

RETURNS

selected certificate compression method.

Since 3.7.4
