NAME
    gnutls_x509_trust_list_add_cas - API function

SYNOPSIS
    #include <gnutls/x509.h>

    int gnutls_x509_trust_list_add_cas(gnutls_x509_trust_list_t *list***, const gnutls_x509_crt_t *** *clist***,**
    unsigned *clist_size***, unsigned int** *flags***);**

ARGUMENTS
    gnutls_x509_trust_list_t list
                    The list

    const gnutls_x509_crt_t * clist
                    A list of CAs

    unsigned clist_size
                    The length of the CA list

    unsigned int flags
                    flags from **gnutls_trust_list_flags_t**

DESCRIPTION
    This function will add the given certificate authorities to the trusted list. The CAs in *clist* must not be
    deinitialized during the lifetime of *list* .

    If the flag **GNUTLS_TL_NO_DUPLICATES** is specified, then this function will ensure that no
    duplicates will be present in the final trust list.

    If the flag **GNUTLS_TL_NO_DUPLICATE_KEY** is specified, then this function will ensure that no
    certificates with the same key are present in the final trust list.

    If either **GNUTLS_TL_NO_DUPLICATE_KEY** or **GNUTLS_TL_NO_DUPLICATES** are given,
    gnutls_x509_trust_list_deinit() must be called with parameter
    all being 1.

RETURNS
    The number of added elements is returned; that includes duplicate entries.

SINCE

3.0.0
