NAME

gnutls_x509_trust_list_remove_cas - API function

SYNOPSIS

#include <gnutls/x509.h>

int gnutls_x509_trust_list_remove_cas(gnutls_x509_trust_list_t *list***, const gnutls_x509_crt_t *** *clist***, unsigned** *clist_size***);**

ARGUMENTS

gnutls_x509_trust_list_t list
> The list

const gnutls_x509_crt_t * clist
> A list of CAs

unsigned clist_size
> The length of the CA list

DESCRIPTION

This function will remove the given certificate authorities from the trusted list.

Note that this function can accept certificates and authorities not yet known. In that case they will be kept in a separate black list that will be used during certificate verification. Unlike **gnutls_x509_trust_list_add_cas**() there is no deinitialization restriction for certificate list provided in this function.

RETURNS

The number of removed elements is returned.

SINCE

3.1.10
