NAME

idn2_strerror - API function

SYNOPSIS

#include <idn2.h>

const char * idn2_strerror(int *rc***);**

ARGUMENTS

int rc   return code from another libidn2 function.

DESCRIPTION

Convert internal libidn2 error code to a humanly readable string. The returned pointer must not be de-allocated by the caller.

Return value: A humanly readable string describing error.
