

NAME

jeilinj - webcamd driver for Jeilin USB cameras

SYNOPSIS

jeilinj

DESCRIPTION

The **jeilinj** driver supports some Jeilin dual-mode cameras which use bulk transport and download raw JPEG data. This is the GSPCA version of the driver.

Devices using the **jeilinj** driver become available to other applications once `webcamd(8)` is loaded.

HARDWARE

The **jeilinj** driver should work with the following USB cameras. The `usbconfig(8)` command can be used to determine the VendorID:ProductID of a plugged in USB device.

VendorID:ProductID

Device

0979:0280	Sakar 57379

AUTHORS

The original **jeilinj** driver was written by Theodore Kilgore kilgota@auburn.edu for the Video4Linux project. It was ported to the FreeBSD `webcamd` port by Hans Petter Selasky hselasky@freebsd.org. This man page was written by Dru Lavigne dru@freebsd.org.
