NAME

ldap_sort_entries, ldap_sort_values, ldap_sort_strcasecmp - LDAP sorting routines (deprecated)

LIBRARY

OpenLDAP LDAP (libldap, -lldap)

DESCRIPTION

The **ldap_sort_entries**(), **ldap_sort_values**(), and **ldap_sort_strcasecmp**() are deprecated.

Deprecated interfaces generally remain in the library. The macro LDAP_DEPRECATED can be defined to a non-zero value (e.g., -DLDAP_DEPRECATED=1) when compiling program designed to use deprecated interfaces. It is recommended that developers writing new programs, or updating old programs, avoid use of deprecated interfaces. Over time, it is expected that documentation (and, eventually, support) for deprecated interfaces to be eliminated.
