

NAME

ldns-config - show compiler and linker flags for ldns usage.

SYNOPSIS

ldns-config [*OPTIONS*]

DESCRIPTION

When writing programs using ldns, you have to tell the compiler where to look for include files and what libraries from which location to link to. **ldns-config** can be used to find out what flags to use with the C compiler and the linker.

OPTIONS**--cflags**

Show the C compiler flags needed to compile with ldns

--libs

Show the flags to be used to link with ldns

--version

Shows the ldns version of the installed ldns library

--libversion

Shows version of the binary api of the installed ldns library

--help

Show **ldns-config** usage description

AUTHOR

Written by the ldns team.

REPORTING BUGS

Report bugs to <ldns-team@nlnetlabs.nl>.
