

**NAME**

libinput-analyze-recording - analyze a device recording

**SYNOPSIS**

**libinput analyze recording** [--help] [options] *recording.yml*

**DESCRIPTION**

The **libinput analyze recording** tool analyzes a recording made with **libinput record** and prints a tabular summary of the events in that recording.

This is a debugging tool only, its output may change at any time. Do not rely on the output.

**OPTIONS**

**--help** Print help

**OUTPUT**

An example output for a tablet sequence is below.

Time	X	Y	PRESSURE	DISTANCE	MISC	SERIAL
0.000	9717	6266		63	0x862	0x9a805597   BTN_TOOL_PEN
0.005	9709				0x9a805597	BTN_TOOL_PEN
0.012	9701				0x9a805597	BTN_TOOL_PEN
0.020	9692	6269			0x9a805597	BTN_TOOL_PEN
0.028	9680	6277			0x9a805597	BTN_TOOL_PEN
0.034	9668	6279			0x9a805597	BTN_TOOL_PEN
0.042	9654	6282			0x9a805597	BTN_TOOL_PEN

**LIBINPUT**

Part of the **libinput(1)** suite
