

**NAME**

libinput-list-kernel-devices - list all kernel input devices

**SYNOPSIS**

**libinput list-kernel-devices [--help]**

**DESCRIPTION**

The **libinput list-kernel-devices** tool iterates through the list of available kernel devices and prints their device node and device name. By default this tool lists evdev event nodes.

**OPTIONS**

**--help**    Print help

**--hid**     List HID devices instead of evdev device nodes

**NOTES**

A device may be available but not recognized by libinput. This may indicate a bug with the udev configuration. See the **libinput list-devices** tools for the devices recognized by libinput.

**LIBINPUT**

Part of the **libinput(1)** suite
