

**NAME**

`libssh2_channel_flush_stderr` - convenience macro for *libssh2\_channel\_flush\_ex(3)* calls

**SYNOPSIS**

```
#include <libssh2.h>
```

```
int  
libssh2_channel_flush_stderr(LIBSSH2_CHANNEL *channel);
```

**DESCRIPTION**

This is a macro defined in a public libssh2 header file that is using the underlying function *libssh2\_channel\_flush\_ex(3)*.

**RETURN VALUE**

See *libssh2\_channel\_flush\_ex(3)*

**ERRORS**

See *libssh2\_channel\_flush\_ex(3)*
