

**NAME**

libssh2\_knownhost\_del - delete a known host entry

**SYNOPSIS**

```
#include <libssh2.h>
```

```
int
```

```
libssh2_knownhost_del(LIBSSH2_KNOWNHOSTS *hosts,  
                      struct libssh2_knownhost *entry);
```

**DESCRIPTION**

Delete a known host entry from the collection of known hosts.

*entry* is a pointer to a struct that you can extract with *libssh2\_knownhost\_check(3)* or *libssh2\_knownhost\_get(3)*.

**RETURN VALUE**

Returns a regular libssh2 error code, where negative values are error codes and 0 indicates success.

**AVAILABILITY**

Added in libssh2 1.2
