

**NAME**

libssh2\_session\_get\_read\_timeout - get the timeout for packet read functions

**SYNOPSIS**

```
#include <libssh2.h>
```

```
long
```

```
libssh2_session_get_read_timeout(LIBSSH2_SESSION *session);
```

**DESCRIPTION**

Returns the **timeout** (in seconds) for how long the ssh2 packet receive function calls may wait until they consider the situation an error and return LIBSSH2\_ERROR\_TIMEOUT.

By default the timeout is 60 seconds.

**RETURN VALUE**

The value of the timeout setting.

**AVAILABILITY**

Added in 1.10.1
