

NAME

libssh2_session_set_read_timeout - set timeout for packet read functions

SYNOPSIS

```
#include <libssh2.h>
```

```
void
```

```
libssh2_session_set_read_timeout(LIBSSH2_SESSION *session, long timeout);
```

DESCRIPTION

Set the **timeout** in seconds for how long libssh2 packet read function calls may wait until they consider the situation an error and return LIBSSH2_ERROR_TIMEOUT.

By default or if you set the timeout to zero, the timeout will be set to 60 seconds.

RETURN VALUE

Nothing

AVAILABILITY

Added in 1.10.1
