

NAME

libssh2_sftp_tell64 - get the current read/write position indicator for a file

SYNOPSIS

```
#include <libssh2.h>
#include <libssh2_sftp.h>
```

```
libssh2_uint64_t
libssh2_sftp_tell64(LIBSSH2_SFTP_HANDLE *handle);
```

DESCRIPTION

handle - SFTP File Handle as returned by **libssh2_sftp_open_ex(3)**

Identify the current offset of the file handle's internal pointer.

RETURN VALUE

Current offset from beginning of file in bytes.

AVAILABILITY

Added in libssh2 1.0
