

NAME

llabs - returns absolute value

LIBRARY

Standard C Library (libc, -lc)

SYNOPSIS

#include <stdlib.h>

long long

llabs(*long long j*);

DESCRIPTION

The **llabs**() function returns the absolute value of *j*.

SEE ALSO

abs(3), fabs(3), hypot(3), imaxabs(3), labs(3), math(3)

STANDARDS

The **llabs**() function conforms to ISO/IEC 9899:1999 ("ISO C99").

HISTORY

The **llabs**() function first appeared in FreeBSD 5.0.

BUGS

The absolute value of the most negative integer remains negative.
