

NAME

Marco - The MATE Window Manager

SYNOPSIS

marco [**OPTIONS**]

DESCRIPTION

Marco is a minimal X window manager that uses GTK+ for drawing window frames. It is aimed at non-technical users and is designed to integrate well with the MATE desktop. Marco is a plain window manager for the adult in you; Many window managers are like Marshmallow Froot Loops, Marco is like Cheerios. It lacks some features that may be expected by traditional UNIX or other technical users; these users may want to investigate other available window managers for use with MATE or as a standalone window manager.

Marco supports several somewhat advanced but common features such as Window Shading/Roll-Up, Window/Edge Snapping, Vertical and Horizontal Maximize, Always-On-Top, Sloppy/Mouse Focus and Raising, and many more... Well, not a lot, but some more.

This manual page documents the **marco** command.

OPTIONS

-d, --display=DISPLAY

X display to use.

--sync

Make X calls synchronous.

--replace

Replace the currently running window manager with Marco.

--sm-disable

Disable the connection to the session manager.

--sm-client-id=ID

Specify a session management ID.

--sm-save-file=FILENAME

Restore from a session management savefile.

If no path is specified **marco** will look in `~/.config/mate-session/saved-session/`

-c, --composite

Turn compositing ON. You may also use this option to start **marco** with composite "true transparency" effects.

--no-composite

Turn compositing OFF. You may also use this option to start **marco** without compositing effects.

--no-force-fullscreen

Do not create fullscreen windows without decorations.

--version

Print current version information and exit.

-, -h, --help

Print standard command line options.

CONFIGURATION

Marco configuration can be found via the main MATE menus, under "*System->Preferences->Windows*" and "*System->Preferences->Keyboard Shortcuts*" or by running the commands **mate-window-properties** and **mate-keybinding-properties** respectively. Advanced configuration can also be achieved directly, via **dconf-editor** under "*/org/mate/marco*".

BUGS

Should you encounter any bugs, they may be reported at:

<http://github.com/mate-desktop/marco/issues>

AUTHORS

This Man Page has been updated/re-written for the MATE Desktop Environment by:

Adam Erdman <hekel@archlinux.info> (2014)

HISTORY

Portions of this manual page were originally written by Luke Morton and Philip O'Brien (2006) for Metacity, but do not bear resemblance to preceding documentation.
