NAME

    mate-about - Learn more about MATE

SYNOPSIS

    mate-about [--version]

DESCRIPTION

    The *mate-about* program is a tool to learn more about MATE and who creates MATE. It contains an introduction about the project, and lists all contributors.

    The list of contributors used by *mate-about* is the list of MATE Foundation members.

OPTIONS

    The following options are supported:

    --version

        Output the MATE version instead of running a graphical interface.

BUGS

    If you find bugs in the *mate-about* program, please report these on http://bugzilla.gnome.org.
