NAME

mate-mouse-properties - configure MATE mouse preferences

SYNOPSIS

mate-mouse-properties [--get-legacy]

DESCRIPTION

This executable is part of the package 'mate-control-center': The MATE Control Center.

The MATE mouse preference tool enables you to configure your mouse for right-hand or left-hand use. It is also used to specify the speed and sensitivity of mouse movement and mouse button press events.

OPTIONS

The following options are supported:

--get-legacy
Retrieve and store legacy settings

This program also accepts the standard MATE and GTK options.

AUTHORS

This manual page has been adopted for MATE by Vangelis Mouhtsis <vangelis@gnugr.org>.
