

NAME

item_name, **item_description** - get menu item name and description fields

SYNOPSIS

```
#include <menu.h>
```

```
const char *item_name(const ITEM *item);  
const char *item_description(const ITEM *item);
```

DESCRIPTION

The function **item_name** returns the name part of the given item.

The function **item_description** returns the description part of the given item.

RETURN VALUE

These routines return a pointer (which may be **NULL**). They do not set **errno**.

SEE ALSO

curses(3X), **menu(3X)**.

NOTES

The header file **<menu.h>** automatically includes the header file **<curses.h>**.

PORTABILITY

These routines emulate the System V menu library. They were not supported on Version 7 or BSD versions.

AUTHORS

Juergen Pfeifer. Manual pages and adaptation for new curses by Eric S. Raymond.
