Name

mysql_num_rows - Returns number of rows in a result set.

Synopsis

#include <mysql.h>

my_ulonglong mysql_num_rows(MYSQL_RES *);

Description

Returns number of rows in a result set.

Parameters

⊕ MYSQL_RES - a result set identifier returned by **mysql_store_result(3)** or **mysql_use_result(3)**. ### Notes The behaviour of mysql_num_rows() depends on whether buffered or unbuffered result sets are being used. For unbuffered result sets, mysql_num_rows() will not return the correct number of rows until all the rows in the result have been retrieved.
