

Name

mysql_server_end - Called when finished using MariaDB Connector/C

Synopsis

```
#include <mysql.h>
```

```
void mysql_server_end(void)
```

Description

Call when finished using the library, such as after disconnecting from the server. For a client program, only cleans up by performing memory management tasks.

Notes

- ⊕ mysql_library_end() is an alias for mysql_server_end().
- ⊕ In MySQL Connector/C versions 3.0.1 to 3.0.4 it was not possible to call multiple times **mysql_server_init(3)** and mysql_server_end().
