NAME
    nop - pretty-print graph file

SYNOPSIS
    nop [**-p?**] [*files*]

DESCRIPTION
    nop reads a stream of graphs and prints each in pretty-printed (canonical) format on stdout. If no *files* are given, it reads from stdin.

OPTIONS
    The following options are supported:

    -p Produce no output - just check the input for valid DOT.

    -? Print usage information.

EXIT STATUS
    If any errors occurred while processing any input, such as a file not found or a file containing illegal DOT, **EXIT_FAILURE** is returned. Otherwise **EXIT_SUCCESS** is returned.
