

NAME

pthread_cond_signal - unblock a thread waiting for a condition variable

LIBRARY

POSIX Threads Library (libpthread, -lpthread)

SYNOPSIS

```
#include <pthread.h>
```

```
int  
pthread_cond_signal(pthread_cond_t *cond);
```

DESCRIPTION

The **pthread_cond_signal()** function unblocks one thread waiting for the condition variable *cond*.

RETURN VALUES

If successful, the **pthread_cond_signal()** function will return zero, otherwise an error number will be returned to indicate the error.

ERRORS

The **pthread_cond_signal()** function will fail if:

[EINVAL]	The value specified by <i>cond</i> is invalid.
