

NAME

pthread_getthreadid_np - get the calling thread's integral ID

LIBRARY

POSIX Threads Library (libpthread, -lpthread)

SYNOPSIS

```
#include <pthread_np.h>
```

int

```
pthread_getthreadid_np(void);
```

DESCRIPTION

The **pthread_getthreadid_np()** function returns the unique integral ID of the calling thread. Its semantics is similar to the AIX's **pthread_getthreadid_np()** function.

RETURN VALUES

The **pthread_getthreadid_np()** function returns the thread integral ID of the calling thread.

ERRORS

None.

SEE ALSO

pthread_np(3), pthread_self(3)
