

NAME

rpc_gss_get_versions - Get supported protocol version

LIBRARY

RPC GSS-API Authentication Library (librpcsec_gss, -lrpcsec_gss)

SYNOPSIS

```
#include <rpc/rpcsec_gss.h>
```

```
bool_t
```

```
rpc_gss_get_versions(u_int *vers_hi, u_int *vers_lo);
```

DESCRIPTION

Return the highest and lowest supported versions of the RPCSEC_GSS protocol.

PARAMETERS

vers_hi The value of **vers_hi* is set to the highest supported protocol version

vers_lo The value of **vers_lo* is set to the lowest supported protocol version

SEE ALSO

gssapi(3), rpc(3), rpcsec_gss(3)

HISTORY

The **rpc_gss_get_versions** function first appeared in FreeBSD 8.0.
