

NAME

ldbdel - Command-line program for deleting LDB records

SYNOPSIS

ldbdel [-h] [-H LDB-URL] [dn] [...]

DESCRIPTION

ldbdel deletes records from an ldb(3) database. It deletes the records identified by the dn's specified on the command-line.

ldbdel uses either the database that is specified with the -H option or the database specified by the LDB_URL environment variable.

OPTIONS

-h

Show list of available options.

-H <ldb-url>

LDB URL to connect to. See ldb(3) for details.

ENVIRONMENT

LDB_URL

LDB URL to connect to (can be overridden by using the -H command-line option.)

VERSION

This man page is correct for version 1.1 of LDB.

SEE ALSO
