NAME

stringprep_check_version - API function

SYNOPSIS

#include <stringprep.h>

const char * stringprep_check_version(const char * *req_version***);**

ARGUMENTS

const char * req_version

Required version number, or NULL.

DESCRIPTION

Check that the version of the library is at minimum the requested one and return the version string; return NULL if the condition is not satisfied. If a NULL is passed to this function, no check is done, but the version string is simply returned.

See **STRINGPREP_VERSION** for a suitable *req_version* string.

Return value: Version string of run-time library, or NULL if the run-time library does not meet the required version number.
