NAME

Tali - A variation on poker with dice and less money.

SYNOPSIS

tali [*OPTION*...]

DESCRIPTION

GNOME Tali is a sort of poker with dice and less money. You roll five dice three times and try to create the best hand. Your two rerolls may include any or all of your dice.

OPTIONS

-d, --delay

Delay computer moves

-t, --thoughts

Display computer thoughts

-n, --computers=NUMBER

Number of computer opponents

-p, --humans=NUMBER

Number of human opponents

-g, --game=STRING

Game choice: Regular or Colours

This program also accepts the standard GNOME and GTK options.

AUTHORS

tali was written by Scott Heavner.

This manual page was written by Sven Arvidsson <sa@whiz.se>, for the Debian project (but may be used by others).
