NAME

ubser - USB support for BWCT console serial adapters

SYNOPSIS

To compile this driver into the kernel, place the following line in your kernel configuration file:

> **device usb**
> **device ucom**
> **device ubser**

Alternatively, to load the driver as a module at boot time, place the following line in loader.conf(5):

> ubser_load="YES"

HARDWARE

The **ubser** driver provides support for the BWCT console management serial adapters.

FILES

/dev/ttyU*.*   for callin ports
/dev/ttyU*.*.init
/dev/ttyU*.*.lock

> corresponding callin initial-state and lock-state devices

/dev/cuaU*.*   for callout ports
/dev/cuaU*.*.init
/dev/cuaU*.*.lock

> corresponding callout initial-state and lock-state devices

SEE ALSO

tty(4), ucom(4), usb(4)

HISTORY

The **ubser** driver appeared in FreeBSD 5.2.
