

NAME

vncconnect - connect a VNC server to a VNC viewer

SYNOPSIS

vncconnect [-display *Xvnc-display*] *host[:port]*

DESCRIPTION

Tells **Xvnc**(1) to connect to a listening VNC viewer on the given host and port.

SEE ALSO

vncviewer(1), **vncserver**(1), **Xvnc**(1), **vncpasswd**(1)

AUTHORS

Original VNC was developed in AT&T Laboratories Cambridge. TightVNC additions were implemented by Constantin Kaplinsky. Many other people participated in development, testing and support.
