NAME

xo_flush, xo_flush_h - flush formatted output from libxo handle

LIBRARY

Text, XML, JSON, and HTML Output Emission Library (libxo, -lxo)

SYNOPSIS

```
#include <libxo/xo.h>

xo_ssize_t
xo_flush(void);

xo_ssize_t
xo_flush_h(xo_handle_t *handle);
```

DESCRIPTION

libxo buffers data, both for performance and consistency, but also to allow some advanced features to work properly. At various times, the caller may wish to flush any data buffered within the library. The **xo_flush()** function is used for this.

SEE ALSO

```
xo_{emit}(3), libxo(3)
```

HISTORY

The **libxo** library first appeared in FreeBSD 11.0.

AUTHORS

libxo was written by Phil Shafer <phil@freebsd.org>.
