

NAME

xo_set_options - change options used by a libxo handle

LIBRARY

Text, XML, JSON, and HTML Output Emission Library (libxo, -lxo)

SYNOPSIS

```
#include <libxo/xo.h>
```

int

```
xo_set_options(xo_handle_t *xop, const char *input);
```

DESCRIPTION

The **xo_set_options()** function accepts a comma-separated list of styles and flags and enables them for a specific handle. The options are identical to those listed in **xo_parse_args(3)**.

SEE ALSO

xo_emit(3), **libxo(3)**

HISTORY

The **libxo** library first appeared in FreeBSD 11.0.

AUTHORS

libxo was written by Phil Shafer <phil@freebsd.org>.
